Education

IIIT Delhi

Bachelor of Technology in Computer Science and Engineering

2024 – Present

Experience

Shiv Nadar University

Research Intern

May 2026 – Present

- Conducted **dynamic behavioural analysis** of distributed payloads in **VMware/Linux sandboxed environments**, tracking resource allocation and execution vectors.
- Used **systems-level profiling and debugging** to isolate anomalies and enhance telemetry pipelines.
- Guide: Dr. Sheel Sindhu Manohar, Team Size: 3

Escorts Kubota Limited

Industrial Internship

May 2025 – Jul 2025

- Developed **production-grade responsive mobile UIs**, optimizing rendering performance, animation pipelines, and component reusability.
- Architected and deployed a **scalable TTS system** into ServGenie, an AI-integrated enterprise chatbot.
- Guide: Mr. Virender Garg, Team Size: 5 – [Completion Certificate](#)

Projects

LIQUIDITY FLOW – Invoice Financing Platform

[GitHub](#)

- Architected a **scalable invoice financing platform** with optimized database structures and backend business logic.
- Developed **FastAPI REST APIs** with **MySQL**, **SQLAlchemy**, **JWT authentication**, and **RBAC** for secure data management.
- Technologies: Python, FastAPI, MySQL, SQLAlchemy, REST APIs, JWT, RBAC

UNIVERSITY ERP – Enterprise Management System

[GitHub](#)

- Engineered a **Java based ERP system** with MySQL database integration and modular object oriented application design.
- Implemented **JDBC database operations**, secure **Bcrypt authentication**, and responsive UI components using Swing and MigLayout.
- Technologies: Java, Swing, MySQL, JDBC, Maven, MigLayout, Bcrypt

SPEAK4U – Android Accessibility App

[GitHub](#)

- Architected an **Android accessibility app** with a modular **TTS voice command pipeline** and configurable parameters for cross-device consistency.
- Integrated a **FastAPI/MySQL backend** with **JWT authentication**, **bcrypt hashing**, and per-user session management.
- Technologies: Android, FastAPI, MySQL, JWT, Bcrypt
